4. DOWNLOAD, INSTALL & SETUP GITHUB DESKTOP

GitHub Desktop | Simple collab X +

← → ⌘ desktop.github.com ☆ Incognito ⋮

The screenshot shows the GitHub Desktop application interface. At the top, there's a navigation bar with 'Overview', 'Release Notes', and 'Help' links. Below the navigation is a large heading 'GitHub Desktop' with a subtext: 'Focus on what matters instead of fighting with Git. Whether you're new to Git or a seasoned user, GitHub Desktop simplifies your development workflow.' To the right of the text is a stylized globe icon with a heart shape. In the center, there's a purple button labeled 'Download for macOS'. Below the download button, there's another for 'Windows' and a note about accepting terms. The main area of the app shows a list of commits and pull requests. A specific pull request is expanded, showing its details and the code changes made. The code editor shows a snippet of TypeScript code related to a dropdown component.
